

## Learn GD&T online and earn a Certificate of Competency in Geometric Dimensioning & Tolerancing from TÜV SÜD South Asia

A web based course for learning Geometric Dimensioning & Tolerancing.

GD&T WEB Tutor is rich with animations and voice explanations. This makes GD&T learning simple and easy. Complex concepts in GD&T are easily understood through interactive animations.

After completing the course , you can write the online test on GD&T and earn a **Certificate of Competency in GD&T** from TÜV SÜD South Asia.

### Certification process

Register and take the Online GD&T course over a 30 day period. You enjoy a 24 X 7 login flexibility.

Write and Qualify for the online GD&T Certification exam from TÜV SÜD South Asia.

Earn a Certificate of Competency in Geometric Dimensioning & Tolerancing from TÜV SÜD South Asia

### Your benefits

#### Corporates:

- Upgrade technical capabilities of your engineers.
- Evaluation and Certification by TÜV SÜD South Asia, an independent certification body.
- No need to set aside a separate day for GD&T training.
- Training is a continuous, easy process spread over 30 days. Batch size is not a constraint anymore. Train 1 person or 100.
- Cost-effective learning. Lower investment per person trained.
- Detailed tracking of each person's activity. Topics visited and quiz scores report is sent to you at the end of the course.

#### Engineers and professionals:

- Professional certification that gives you an edge over others.
- Evaluation & Certification by TÜV SÜD a global certification body.
- Detailed content. About 20 hours of learning.
- Revise topics as often as you need.
- Take the course in office, or take a quiet hour off at home. Save on traveling.
- Excellent course material. Retain it for reference.
- Evaluate yourselves with in-line quizzes.
- Summary of topics visited and quiz scores report sent to you at the end of the course.

## Geometric Dimensioning & Tolerancing

- GD&T is the global language of Design & Manufacturing
- Drawings and CAD models of the future will come with GD&T annotations.
- GD&T aims at high Quality at Low costs. Every organization's goal!
- Designers, Process, Manufacturing, Quality and Sourcing engineers will be expected to know GD&T.
- To a Technologist, knowing GD&T is becoming almost as necessary as knowing how to read and write.

## TÜV SÜD South Asia

- Independent certification, testing, auditing, inspection and training body.
- TÜV SÜD South Asia's Division, Certification Body of Persons – Academy, recognizes training organizations to provide courses and examinations associated with qualification schemes for professionals in Industries.

## SymphonyTech

- A Global Software & Consulting company.
- Have done significant work towards improvement of Quality in Design and Manufacturing.
- Serve customers in over 30 countries spanning across five continents.
- Active in GD&T training & consulting for over 15 years.
- Trained over 5000 engineers in the GD&T Technology
- Design & Engineering Consultants to major Indian corporates
